CONTENTS VOL. 25

Simulation of a velocity transition zone by a stack of thin homogeneous layers
M.J. Kuhn (Livermore Falls, Maine, U.S.A.) 1
Step responses for two-dimensional transient electromagnetic models
J.I. Adhidjaja and G.W. Hohmann (Salt Lake City, Utah, U.S.A.) 13
Experiences with a local loop VLF transmitter for geological studies in the Canadian Nuclear Waste Management Program
A.K. Sinha (Pinawa, Man., Canada) and J.G. Hayles (Ottawa, Ont., Canada) 37
Crustal magnetization beneath the Aulneau and Sabaskong batholiths, Kenora and Fort Frances districts, Ontario, Canada
D.H. Hall and T.W. Millar (Winnipeg, Man., Canada) 61

Announcement 91

The modelling of mise-à-la masse anomalies in an anisotropic half-space by the integral equation method
E.H. Eloranta (Espoo, Finland) 93
Gravity, its gradients, simultaneous inversion and magnetism – a critical study
F. Guspí and A. Introcaso (Rosario, Argentina) 103
Random time series analysis for linear systems based on the Laplace transform with application to the magnetotelluric method
L.M. Musé and R. Haught (Santa Rosa, Calif., U.S.A.) 113
Reduction of the geological noise in magnetotelluric soundings
A.A. Kaufman (Golden, Colo., U.S.A.) 145
A surface impedance mapping technique based on radiation from discrete lightning strokes
D.V. Thiel, M.J. Wilson and C.J. Webb (Nathan, Qld., Australia) 163
Letter to the Editor
J.R. Wait (Tucson, Ariz., U.S.A.) 173

Book Review
Ore Deposit Geology, by R. Edwards and K. Atkinson (Editors) — R.I. Thorpe 175

Reciprocity theorems in geoelectric and geoelectromagnetic work
D.S. Parasnis (Luleå, Sweden) 177
Interpretation of magnetic gradient anomalies using characteristic positions of equi-angular separation: geological contact and vein
T.K.S. Prakasa Rao (Waltair, India) 199
Reflections on the electrostatic characteristics of direct current in an anisotropic medium
L. Eskola (Espoo, Finland) 211
A rock mass assessment experiment in the Artemission tunnel (Central Greece) using seismic attenuation measurements
G-A. Tselentis, A. Sofianos, D. Paliatsas, K. Makropoulos and J. Drakopoulos (Athens, Greece) 219
Distortions of magnetotelluric sounding curves due to a slope
J.M. Travassos and D. Beamish (Edinburgh, Great Britain) 229
Observations of double sign reversals in transient electromagnetic central induction soundings
G.K. Walker and K. Kawasaki (Fairbanks, Alaska, U.S.A.) 245
Electric resistance survey of the southern part of the buried ancient town of Stymphalos
St. Papamarinopoulos (Patras, Greece)
R.E. Jones (Athens, Greece) and H. Williams (Vancouver, B.C., Canada) 255

Book Reviews
Metallogeny of Basic and Ultrabasic Rocks, by M.J. Gallagher, R.A. Ixer, C.R. Neary and H.M. Prichard (Editors) — P. Laznicka 263
Practical Problems in Exploration Geochemistry, by A.A. Levinson, P.M.D. Bradshaw and I. Thomson — B. Öhlander 264

Interaction of induced polarization and electromagnetic effects in borehole probing
T.P. Cruszka and J.R. Wait (Tucson, AZ, U.S.A.) 267
Effective algorithm for determination of the intersection points of geophysical line networks
M.K. Kanarchev (Sofia, Bulgaria) 279
A paradox in geoelectromagnetism, and its resolution, demonstrating the equivalence of frequency and transient domain methods
A.A. Kaufman (Golden, CO, U.S.A.) 287
Wavenumber domain interpretation of magnetic gradiometer data
A. Aina (Ile-Ife, Nigeria) 319
Radon emanation studies of the Ile Bizard fault, Montreal
A. Abdoh and M. Pilkington (Montreal, Que., Canada) 341

Discussions
Location of sub-surface geoelectric anomalies for archeological work - A discussion
G.M. Cross (Vancouver, B.C., Canada) 355
Location of sub-surface geoelectric anomalies for archeological work - A reply
L. Orlando, S. Piro and L. Versino (Rome, Italy) 359
Electrical potential due to a point current-source over an anisotropic earth with a linear variation of conductivity in transverse and vertical directions - A discussion
M. Bernabini (Rome, Italy) 363
Electrical potential due to a point current-source over an anisotropic earth with a linear variation of conductivity in transverse and vertical directions - A reply
B.P. Pal (Calcutta, India) 364

Book Reviews
Geophysik und Geologie: Untersuchung des gestörten Lockergebirges, by R. Lautersbach (Editor) — J.A. Zuber 367
Writing Geochemical Reports, Guidelines for Surficial Geochemical Surveys, by S.J. Hoffman — B. Öhlander 369
Transient Waves in Layered Media, by M. Tygel and P. Hubral — M. Båth 370
Frontiers in Exploration Geophysics, by B.B. Bhyattacharya (Editor) — D.S. Parasnis 372
Advances in Geophysics, by B.B. Bhattacharya (Editor) — D.S. Parasnis 373

Guide for Authors
